THINGS YOU SHOULD ASK WHEN CHOOSING THE PERFECT NURSERY

Are activities varied and include sensory, heuristic, role and messy play?

Are all staff DBS checked and qualified to 'Early Years' level? Are there a high number of degree level staff too?

Is there an engaging and a safe outdoor environment?

Do they offer a 'Open door policy' allowing a show round at your convenience?

Is there a range of parents testimonials available to view?

Are they registered with Ofsted and rated at least "Good"?

Is there an excellent internal training programme and quality assurance schemes to constantly improve staff?

Are there stringent policies on illness exclusion periods and medication, to safeguard the well-being of my child?

Is there an induction programme to ensure staff are continually doing their best?

Do they offer flexibility for pick up and drop off times?

Do they provide healthy snacks?

Will my child's learning and their progress be documented, and will I be regularly updated on their progress?
